

AKTIV LIGHT 01

Mobile knee brace

SRT 308

Indications

Used for strains, dislocations, patella injuries, post consolidated fractures, inflammation, and arthritis. Support for every day and sporting activities.

Description

A pull-on textile knee brace, consisting of:

- 2 metal spiral stays on each side, providing medical and lateral support
- 2 adjustable straps to improve suspension and reduce slipping
- Patellar support (polyethylene foam)

Hook and loop fastening on the front side.
Length: 29 cm.

Pull-on knee braces are not recommended in cases of oedema or significant swelling. Where this is an issue we recommend the **Triagen** or **Triagen Extra** braces.

Composition

Neoprene coated polyester fabric.

- Available in Black

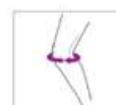

- pull on knee brace
- polyethylene foam patellar support

- secure hook and loop straps
- supportive spiral stays providing medial and lateral support
